WORK INTEGRATED LEARNING

" We are confident that our current students, having experienced a variety of WIL activities, will be truly career-ready when they leave us."

Jeremy Charoux,
Executive Director

Curtin University

Government of Western Australia
North Metropolitan TAFE

Government of Western Australia
South Metropolitan TAFE

WORK INTEGRATED LEARNING

What is Work Integrated Learning (WIL) ?

WIL stands for Work Integrated Learning, an umbrella term used to describe a range of approaches that integrate theory with the practice of work.

Key approaches include:

INTERNSHIPS

INDUSTRY-BASED PROJECTS

SERVICE OR COMMUNITY-BASED PROJECTS

INDUSTRY AND COMMUNITY EVENTS

PARTICIPATION IN LOCAL AND INTERNATIONAL INDUSTRY COMPETITIONS

RESEARCH ASSISTANCE PROJECTS

How does WIL benefit students

- Apply the theory and skills learnt at university in a workplace
- Develop career-readiness skills essential for employability
- Experience corporate culture/organisational behaviours
- Test and showcase their graduate capabilities
- Gain insights into potential job types that could interest you in the future
- Develop networking opportunities for future employment

How does WIL benefit employers

- Closely examine the skills and suitability of students before they graduate.
- Benefit from an enthusiastic, short term 'employee' who can undertake projects or tasks which might not otherwise get done.
- Provide existing employees with opportunities to learn valuable mentoring and management skills.
- Contribute to industry and to society in general through the development of the youth or future workforce.
- Gain visibility across all stakeholders and share their values.

What CTI students and graduates think about their WIL experience

"I used to be shy but not anymore as my WIL experience helped me to develop my communication skills and therefore become a much more confident person."

Jeevedranath Parbhoo Jheelan,
Diploma in Business

"Being part of a WIL project has been a wonderful experience which shaped my resilience and leadership skills while allowing me to give back to society."

Pearlyn Chan,
BA Mass Communication

"The most interesting aspect about my WIL experience has been the real world application of concepts which enabled me to go beyond typical textbook problems and get a taste of what a financial analyst's job really entails."

Ashraf Bhatoo,
BCom Accounting and Finance graduate

What Does Industry Think about WIL ?

"The CTI WIL project enables students to develop their ability to satisfy customer expectations, work in teams and sharpen their skills such as analytical methodology, synthetic and oral presentation and application of theory to practice."

Caroline Rault,
General Manager,
Maurilait Production Ltd

"Move For Art and the Porlwi Collective have found the excellent administrative and academic collaboration of CTI to be reflected in its students. CTI's interns were especially conversant with modern communication tools and in compiling information for and from the festival."

Astrid Dalais,
Director,
Move For Art.

"Companies are always on the lookout for talented individuals and WIL is the ideal platform for us to identify these talents at an early stage."

Frederic NG
Executive-Sales and Operations,
Birger.

The CTI WIL Committee

The committee's prime mission is to design best strategies to lead and deliver effective Work Integrated Learning at CTI by:

- Brokering WIL opportunities
- Communicating and advocating WIL opportunities to relevant stakeholders
- Providing WIL training and support where required
- Managing and monitoring WIL initiatives
- Celebrating WIL success

Who to contact?

For any questions or if you wish to seek WIL opportunities, please contact
