Curtin University

BACHELOR OF COMMERCE **BANKING AND FINANCE**

WHAT IS IT?

The **Banking** major will introduce you to banking practice and management, the different risk areas that banks are exposed to and the application of different financial models and methodology to manage these risks. You will also acquire the skills and knowledge needed to prepare and present holistic financial plan to meet clients' goals.

The Banking major will also provide you with an understanding of international risks and faced by banks operating in a global market place and the management of these risks.

In the **Finance** major, you will learn about investment

evaluation, how to fund activities and understand the importance of the capital structure of a company. The course also provides you with an understanding of the structure and operations of financial markets and financial instruments including derivative instruments. You will also learn about security analysis and portfolio performance evaluation techniques.

Please note:

During your first semester of the Bachelor of Commerce you'll complete common core units which will provide an introduction to the various aspects of business. You do not need to make a final decision on a single or combined major until your second semester.

WHY A CURTIN BCom IN BANKING AND FINANCE AT CTI?

- ✓ **Career in Financial services:** Today, with financial liberalization, the separation between banks and non-bank financial sectors has become thinner and many operators are actively involved in both areas of activity. The sector now needs people who can easily switch from one financial activity to another
- ✓ **Global perspective:** The examination of recent developments in international financial markets is covered, including problems in current banking systems. This will give you a global perspective and prepare you to become employable in the global financial market
- ✓ **Industry Exposure:** CTI's link with the industry brings enrichment to Curtin's programme by ensuring adequate contextualisation. Guest speakers from the industry are invited to share their knowledge and expertise with our students and we also do our best to help students in their search for an internship during their final year of study
- ✓ **Business Acumen:** This Curtin degree allows final-year students the opportunity to develop their business acumen through a unique simulation program during which students compete in teams to run a virtual company in a virtual industry
