Curtin University

BACHELOR OF COMMERCE
BUSINESS INFORMATION
TECHNOLOGY AND SYSTEMS
Double Major

TEC approved

WHAT IS IT?

Take the technical lead. Give your management aspirations an edge with a detailed understanding how business information systems work. In this double major you'll examine the management, planning and design of information technology, and study how to use information technology and systems to solve all kinds of business problems.

The **information technology** major focuses on how information technology is used to collect, process and output information in organisations, and provides an in-depth knowledge of computer programming and design, as well as systems implementation and management. You will gain an introduction to: programming and design, systems implementation, and IT management.

The **Information systems** major focuses on the business side of information technology. You will learn how business information systems are selected, managed and applied to business problems, and gain a broad understanding of business systems analysis and design, business software tools, information security, project management, business-related information systems management and knowledge.

Please note:

During your first semester of the Bachelor of Commerce you'll complete common core units which will provide an introduction to the various aspects of business. You do not need to make a final decision on a single or combined major until your second semester.

WHY A CURTIN BCOM in Information Technology & Systems at CTI?

- ✓ **Industry Network:** In addition to the international contents, this degree will provide you with the opportunity to liaise with industry experts as you work on real-world projects and undertake internships with the best IT firms in this country or overseas
- ✓ **Innovation:** There is a strong focus on the use of the latest technologies and concepts
- ✓ **Portfolio:** By the end of the course students will have gone through a number of projects which will enable them to display their talents to potential employers
- ✓ **Strong practical Focus:** CTI's state-of-the-art facilities provide students with the necessary services to access the best resources in preparation for the world of work
- ✓ **Employability Advantage:** This course helps students develop a comprehensive and unique combination of soft ware, hardware and networking skills which is in high demand in the IT Industry
